Petition to Make Special

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant hereby respectfully petitions that the above application be made special under MPEP Sec. 708.02 for the following reason; attached is a declaration in support thereof:

- | | |
|--|---|
| I. <input type="checkbox"/> Manufacturer Available;* | VII. <input type="checkbox"/> Recombinant DNA Is Involved;* |
| II. <input type="checkbox"/> Infringement Exists;* | VIII. <input type="checkbox"/> Special Procedure: Search Was Made;* |
| III. <input type="checkbox"/> Applicant's Health Is Poor; | IX. <input type="checkbox"/> Superconductivity Is Advanced; |
| IV. <input type="checkbox"/> Applicant's Age Is 65 or Greater; | X. <input type="checkbox"/> Relates to HIV/AIDS or Cancer;* |
| V. <input checked="" type="checkbox"/> Environmental Quality Will Be Enhanced; | XI. <input type="checkbox"/> Counters Terrorism.* |
| VI. <input checked="" type="checkbox"/> Energy Savings Will Result; | |
- * ☐ Also attached, since reason I, II, VII, VIII, X or XI has been checked, is the \$_____ Petition Fee pursuant to Rules 102 and 17(i).

Very respectfully,

Applicant(s): Kamen Kamenov

Attachment(s): Fee if indicated and supporting Declaration

Certificate of Mailing

I certify that this correspondence will be deposited with the United States Postal Service as first class mail with proper postage affixed in an envelope addressed to: "Commissioner for Patents, Washington, DC 20231" on the date below.

Date: 200 MAY 18. 2004 Kamen Kamenov, Applicant

In the United States Patent and Trademark Office

Appn. Number: 10/762,783

Filing date: 01/23/2004

Applicant: Kamen G. Kamenov

Mailed: 2004. May 18

**Declaration in Support of Accompanying Petitions to Make Special
Reason V - Enhancement of Environmental Quality
Reason VI - Energy Savings Results**

In support of accompanying Petition to Make Special, applicant declares as follows:

1. I am the applicant of the above-identified patent application.
2. The invention of the above application will materially enhance the quality of the environment of humankind by contributing to the restoration or maintenance of the basic life-sustaining natural elements of air, water, natural resources and energy in the manner described below:
3. Specifically, the invention of the above application is a new type of rotary engine which provides more efficient way of converting energy from gasoline than theretofore available engines because it uses a highly efficient design employing a rotary piston which is the only moving part inside the engine, thereby increasing an average 30 to 50% efficiency of the engine, compared to the prior-art conventional internal combustion engines, as described in full detail on pages 3 to 8 of the specification.

- 2 -

4. By more efficiently using gasoline power it enables the potential users to lower the cost of energy extracted per gallon of gasoline. This will result in a conserving and saving of natural resources and a decrease dependency on importing foreign gasoline.

5. In addition, the invention of the above application will contribute to saving of energy and natural resources because of its size and volume. Since the rotary engine, according to the invention, is approximately more than 50% smaller and lighter than a conventional engine of a comparable capacity, it will require much less energy to manufacture and assemble thus resulting in the above mentioned saving of natural energy and resources and therefore enhancing the quality of the environment and decreasing the global pollution.

6. I further declare that all statements made herein of my own knowledge are true and that all statements made upon information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application and any patent issuing therefore.

Very respectfully,

Kamenov
